For Pool Builders AND Service!

If you don't know the codes that you need, things could be worse for you and your company, if there is a lawsuit.

" I'm going to have to review what my team is doing."

That is what an owner of a pool service company said after they joined the seminar for

ISPSC Training.

What are you missing?

The International Pool and Spa Code is for

**New Pool Construction
Pool Service & Repair
Pool Remodeling
Inspectors**

The simplest thing that you need to know- If you are replacing a pool pump or even just a motor on any pool or spa- It must have a GFCI installed!

Come find out what you don't know- Sign up for a 3-4 hour ISPSC Course.

These 2 courses focus on Residential pools!

**Special Offer from
Service Industry News-

Texas Electrical License - RAIL UPDATE !

**Texas did adopt the 2023 NEC
September 1, 2023** and all electrical work
should meet the requirements for the 2023
NEC code ! **The RAIL Exam will change
October 1, 2023**

The Texas Residential Appliance Installer License (RAIL) is required for repairing or replacing swimming pool and spa electrical equipment- including Pumps, Heaters, Lights, Time Clocks/Automation, Salt Water Systems, etc.

The fines are \$2000/ offense.

**TDLR has changed the date for
changing the exam to October 1, 2023.
If you are NOT licensed and you have
been preparing using the 2020 NEC-
you have until October 1, 2023!**

**I have prepared the new materials for
2023 NEC!**

**If you have studied the 2020 NEC-
please take and pass your exam before
October 1.**

**If you are licensed before October 1,
you do not have to take a test for the
2023 NEC.**

**If you are currently licensed- watch for
2023 NEC Update classes.....**

FREE !!

**The next 2023 UPDATE class for people
WITH a RAIL License is**

September 18.

**These update classes are about 1 hour
over zoom- FREE!!!!**

**PHTA/NSPF CPO 100%
online classes !**

**The CPO (Certified
Pool Operator
Course) is available
as a 100% Online
class. This program
will not fit for
everyone, but the online option is
available.**

**Some states are rolling back acceptance of the
Online Only class- Watch for updates !**

If you are not sure-

Please call your local Health Department.

There are 3 parts to the program

Step 1-The online class- Pool Operator Primer (\$225/person) has always been available as part of the Fusion option. For this portion, when you register on my website, I send the access codes for your online class- and you have access to an online version of the book. So, you can start the online Pool Operator Primer as soon as you receive the email with the access codes. I also send you a copy of the Book and Handouts.

Step 2,you must register for an online real-time webinar.(\$160). The webinar will be conducted just like the review for the class- with an emphasis on some of the safety issues like VGB Act and also the calculations necessary for the test. I expect the webinar to last about 7 hours. During the webinar, you will be able to ask questions either from your computer microphone or by text. You must be on camera and microphone for all of the class time.

Live & Real-time- I will answer your questions as you ask them.

The \$160 includes the webinar and the additional cost of the online exam.

That brings the total to \$385/person

Step 3- ONLINE EXAM.

For the webinar and the test. The participant MUST have a computer that provides a video and audio access to Zoom.

Before they can take the webinar, they MUST complete the online Pool Operator Primer Course.

When they log onto the webinar, I will need to see their Certificate of Completion.

For the test, I must see their Picture ID.

After the Webinar, They will be able to log onto an online exam- but they MUST have the webcam on them while they are taking the test. If I cannot witness the exam, they will not be certified- regardless of their score.

The above limitations will not work for everyone.
